

TELEGRAPH WITH PERFIN THROUGH 'INTEGRAL' FISCAL STAMP-Arthur Smith

The articles headed "When Is A Perfin Not A Perfin" in our Society Bulletins during the past year have been of much interest. The telegrams with a punch through stamp and form (Bulletins 268-71) reminded me of a rather unusual item in my own collection.

This is a mint QV Post Office Telegraph form with an embossed 6d stamp in the top right hand corner. The perfin through the stamp is A2820.01 AH/&Co 10,12/12,8,6 4½mm (IIIa). The identity in Tomkins is A. Handyside & Co. Ltd., Derby but there is nothing on this item to indicate the user.

My thoughts, or queries, are as follows:-

- 1) Was the telegraph perfined on Post Office authority?
- 2) Was the telegraph perfined by A. Handyside & Co. Ltd.?
- 3) Was the telegraph perfined by McCorquodale & Co. Ltd., who printed the form?

Whatever the answer, it would appear that anyone could perfin a document or stamp if they obtained a perfin die-stamp.

The illustration of the Telegraph form is reduced in size, but the perfin die is shown full size.
